

FREDERICK 
Continuing Care Retirement Community
Rooted in the Mennonite Heritage

December 23, 2020

Dear Resident and Family Representative,

As you know, we are working with CVS Pharmacy on the COVID-19 vaccination that will be offered to residents and staff at Frederick Living. Yesterday, we received an email from CVS indicating that Personal Care residents (Magnolia House and Aspen Village) would not be included in the first phase of vaccinations. This information is different than what we were told originally and has been communicated to other similar organizations across the state of Pennsylvania.

We are actively working to get clarification from CVS to understand why this decision was made. We also want to know when Personal Care residents will be offered the vaccine should they not be included in the first phase.

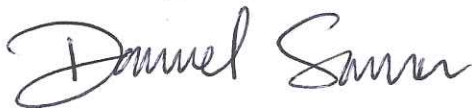

We are sorry to have to provide this news. As we have stated previously, everyone is learning and making plans in real time. It is inevitable that other changes will be made as this large rollout takes place.

We are committed to providing you with the most accurate and up to date information that we have.

If you have any questions, please don't hesitate to contact Lori Spiezio or myself. We would also encourage you to check out the vaccine page on the Frederick Living website for updates and vaccine education resources.

Lori Spiezio, Clinical Manager 610-754-7878 ext. 1313
Daniel Samai, PC Administrator 610-754-7878 ext. 1284

Sincerely,

Daniel Samai, PC Administrator
Magnolia House
Aspen Village
